GUIDEWIRE PORTAL DEVELOPER

PROFILE

Highly skilled and results-driven software developer with a passion for crafting innovative solutions to complex problems. Experienced in coding, testing, debugging, deployment, collaboration, and mentoring across Guidewire and modern web applications.

EXPERIENCE

Senior Associate

PwC (US AC) | Bangalore

22 Aug 2024 - Present

- Development, reviewing business requirements, code reviewing, and giving training.
- Contributed to more than 15 lines of business, including FNOL and Producer Engage, using Micro Front-End Architecture.
- Created shared components and assets for PwC's first JDP project and conducted JDP lessons.

PROJECT EXPERIENCE

Columbia Insurance

Worked on JDP microfrontends for 8 new business LOBs and 6 FNOL LOBs. Built and connected the flows with Producer Engage using Digital Engage Jutro, supporting reusable portal experiences across the insurance journey.

Frankenmuth Insurance

Contributed to an on-premises-to-cloud upgrade across Commercial and Personal Lines, covering more than 10 LOBs using Digital Engage Jutro. Later moved to JDP to build microfrontends for additional Commercial Lines LOBs and support the cloud modernization program.

Shelter Insurance

Worked on a JDP microfrontend implementation connected to Producer Engage as part of a lift-and-shift project. Delivered portal work across 7 Commercial Lines LOBs while helping maintain consistency between the existing platform and the modernized JDP experience.

Front End Development Senior Analyst

Accenture Technology Solutions | Bangalore

26 Feb 2021 - 18 Aug 2024

- Built architecture for Account Management and Quote & Buy with custom, reusable components leveraging Jutro.
- Delivered user-story implementation, unit testing, code review, issue fixing, and performance tuning.
- Mentored interns, supported onboarding, conducted interviews, and guided team members in Jutro.

PROJECT EXPERIENCE

Cinetik Car Insurance Line of Business

The project implemented a Guidewire cloud solution across France, Italy, Germany, and Spain, spanning InsuranceSuite X-Centers (PC, BC, CC, CM) and the Digital Portal (Quote & Buy and Account Management). The platform components were integrated to support the latest Guidewire releases.

- Development, learning, testing, debugging, collaboration, documentation, and certification.
- Worked extensively on a health insurance project as an Angular Developer.
- Supported production performance tuning, documentation, and process improvements.
